| Storage   | 2 years -20°C Powder, 2 weeks 4°C in DMSO, 6 months -80°C in DMSO                                                                                                                                                                                                                                                                        |
| Structure |  <p>The chemical structure shows a 4-(hydroxymethyl)phenyl group connected via an amide bond to a pyrazole ring. The pyrazole ring has a methyl group at position 3 and is connected via its nitrogen at position 1 to a 2,4-dichlorophenyl group.</p> |
| Purity    | >98%                                                                                                                                                                                                                                                                                                                                     |
