| MW        |                                                                                                                                                                                                                                                                                                                                                 |
| Storage   | 2 years -20°C Powder, 2 weeks 4°C in DMSO, 6 months -80°C in DMSO                                                                                                                                                                                                                                                                               |
| Structure |  <p>The chemical structure shows a central indole ring system. The indole nitrogen is connected to a side chain: -CH2-CH(OH)-CH2-NH-. The NH group is attached to a 4-methoxyphenyl ring. The indole ring has two bromine atoms at the 2 and 6 positions.</p> |
| Purity    | >98%                                                                                                                                                                                                                                                                                                                                            |
